

MAX-OUT OIL GUZZLER
ENVIRONMENTAL APPLICATIONS

The Cost Effective Approach to Quality Filtration

FTC introduces its new MAX-OUT OIL GUZZLER cartridge for eliminating trace oil from water.

The media in this unique cartridge combines the effects of adsorption and absorption to enhance its oil removal efficiency. Incorporating this media into a 6.25 inch OD filter design that utilizes segregated flow chambers and flow barriers results in maximum oil holding capacity.

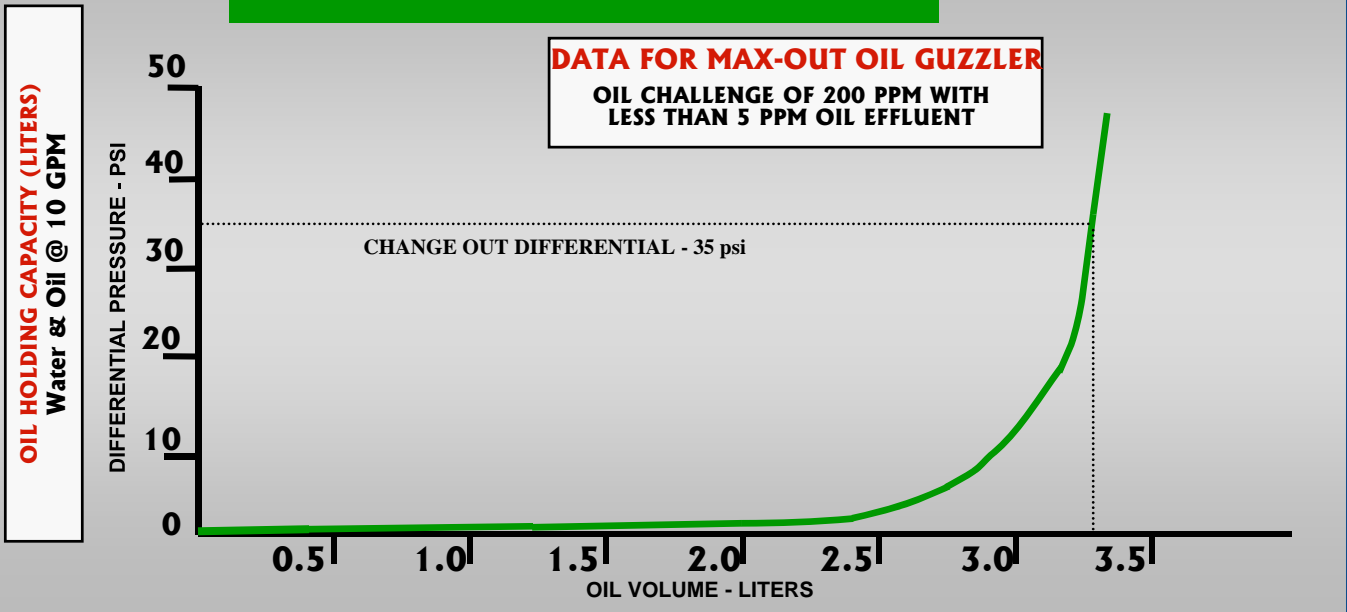

One MAX-OUT OIL GUZZLER is designed to hold more than three liters of oil before reaching the maximum differential pressure of 35 PSI. The built in flow cutoff mechanism provides a positive indication of cartridge change-out time prior to any oil bypass.

With a recommended maximum flow rate of 10 GPM, the MAX-OUT OIL GUZZLER is the optimal solution for eliminating trace oil from water at minimal cost in single pass filtration.

OIL HOLDING CAPACITY

PRODUCT SPECIFICATION

FTC's MAX-OUT SERIES "OIL GUZZLER" is a non-toxic, non-corrosive, environmentally friendly hydrocarbon adsorption and absorption cartridge.

Materials of Construction:

Cartridge caps: polypropylene

Cartridge core: polypropylene

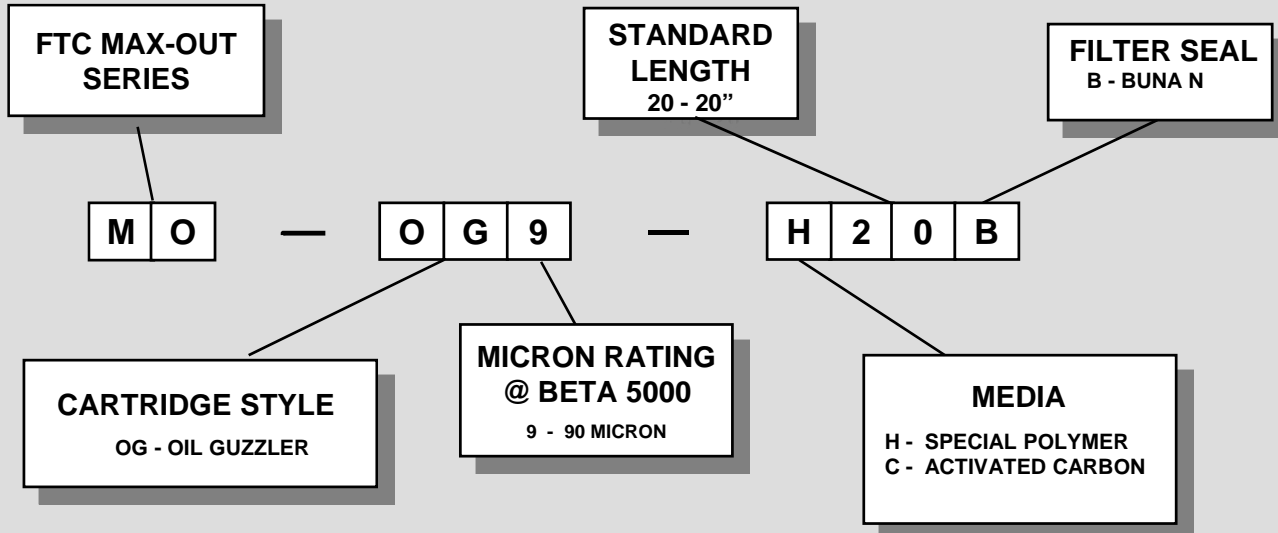

Cartridge supports: polypropylene

Cartridge seals: Buna-n

Cartridge media: non-hazardous, non-toxic, non-corrosive hydrophobic elastomeric polymer* that bonds hydrocarbons permanently

* proprietary product blend
